

Report per aggiudicatario

Trattativa : n.prot. 3694154 - Procedura aperta di rilievo europeo mediante asta elettronica per la fornitura di sostanze medicinali comprendenti emoderivati, soluzioni galeniche ed infusionali, mezzi di contrasto ed altri prodotti terapeutici

Note interpretative:

Nel caso in cui per il lotto esistano offerte paritarie presentate da diversi fornitori, il sistema conteggia il lotto per ogni fornitore migliore offerente.

L'importo di cessione, la percentuale di sconto sul base d'asta e la garanzia fideiussoria sono calcolate e visualizzate nelle rispettive colonne se e solo se il fornitore ha confermato la propria offerta generando il relativo PDF.

La percentuale di sconto sul base d'asta è visualizzata se e solo se maggiore di zero.

La garanzia è calcolata sulla base dell'art. 113 del D.Lgs. 163/2006 che dispone:

L'esecutore del contratto è obbligato a costituire una garanzia fideiussoria del 10 per cento dell'importo contrattuale. In caso di aggiudicazione con ribasso d'asta superiore al 10 per cento, la garanzia fideiussoria è aumentata di tanti punti percentuali quanti sono quelli eccedenti il 10 per cento; ove il ribasso sia superiore al 20 per cento, l'aumento è di due punti percentuali per ogni punto di ribasso superiore al 20 per cento.
